

Charlie Luke District 6

Thanks for contacting me on behalf of “Community Summit for Law Enforcement Accountability”. As a member of the Salt Lake City Council representing District 6 it has been my practice to meet individually and in groups with anyone expressing concern or with questions about city issues. I have been an advocate for increased training for police officers and have supported the increased funding those programs require. I believe that the Salt Lake City Police Department is far more progressive than other law enforcement agencies of similar size. I am always open to suggestions and informed research on how all city departments can improve to better serve the citizens of Salt Lake City.

Thanks,

Charlie
